Curated Palette

Curated Palette

Burgtec has extended our powdercoat finishes for workstations, with five exclusive “Curated Palette” colours.

5 New Colours – Key Points:

- Workstations are now in stock in 5 new colours: Kalamata, Eucalypt, Bluestone, Burnt Ochre, Baye
- No minimum order quantities
- Minimal extra charge, and the same lead times as Black and White
- Available from November 2025

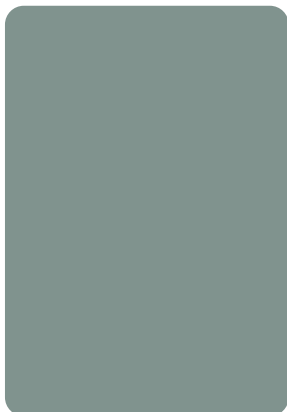

Benefits:

- Specify with confidence – clients can easily match custom colours in future (no long lead times or MOQs)
- Bring a point of difference into your fitout – a wider choice beyond the standard Black/White options
- Direct Laminex matches (Kalamata, Eucalypt, Bluestone, Burnt Ochre, Baye) for seamless joinery coordination
- All other metal products (tables, chairs, storage) can be upgraded to these finishes

This gives you more flexibility when designing workspaces. Workstation frames, table bases, lounge frames and chair bases can now all be finished to perfectly match fabrics, laminates and acoustic panels for a more cohesive, tailored look.

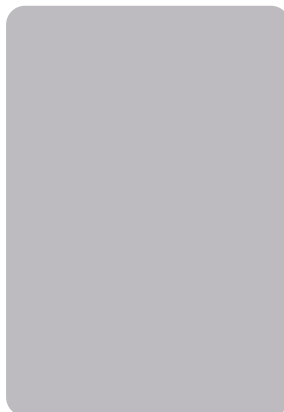

Kalamata

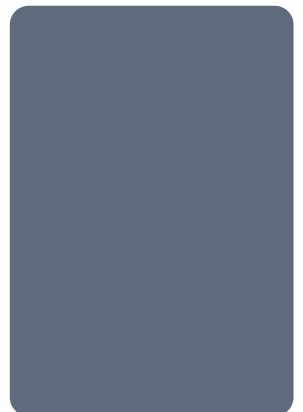

Eucalypt

Burnt Ochre

Baye

Bluestone
