House Leathers

## A natural partnership

Sydney-based Corium Leather was born to restore passion and respect-for-craft in the Australian Leather industry. With over 50 years' experience now, and exceeding traditional standards and environmental values, Corium are a trusted supplier for designers and furniture makers internationally.

Corium represents several leading European tanneries, including a 'World Tannery of the Year' and 'World Leather of the Year' award-recipient for progressive techniques using olive leaf and other natural tanning agents.

Sharing German heritage, Burgtec and Corium are paralleled through a dedication to excellence and quality. Understanding the privilege of working with the best leather Europe has to offer, Burgtec upholsterers appreciate its true sensitivity, and ensure considerate treatment of the hides to produce the finest pieces.

Burgtec is proud to be working alongside such a distinguished leather merchant bringing beautiful furniture to our clients - the perfect fusion of German precision, and Australian craftsmanship.

**CATEGORY E**  
**Prestige**

A waxed, plated, pure aniline saddle leather, Prestige is ideal for soft seating with cubic design. And like a lot of things, this leather gets better with age - developing a gorgeous, worn patina the more it's used.

People are the heart of every organisation. A well-designed workplace is one that welcomes, supports and elevates. It inspires people to bring their best self to work, everyday.

At Burgtec, we're genuine about partnerships. Bringing our expertise to the table, we listen with intent to understand the individual needs of our clients. We're proud to provide service as it should be, never taking our supplier, peer or client relationships for granted.

Since 1981, we've been local first. We design and manufacture our furniture here in Australia, using locally produced materials and suppliers at every step possible. We do this because it just makes sense – quicker lead times, true sustainability, better control of budgets and never needing to compromise on quality.

A Burgtec workplace balances practical needs with good design and ingenuity. It's a space that sits right, a place that nurtures relationships and potential.
