CUSTOMISED CONFIGURATIONS

The original Haven – a compact, modular system with a tapered back, covering linear, curved and corner modules for an infinite number of custom configurations.

Whether its a casual 'huddle', a quiet break or seating for a high traffic area, Haven options provide the flexibility to suit any environment.

While the Haven 'Tall' serves as a flexible way to divide spaces, the ottoman modules complete the range and can be placed loose or included in larger configurations.

AUSTRALIAN MADE

Burgtec is serious about manufacturing furniture here in Australia using locally sourced materials. It just makes sense in order to provide world-class furniture with quicker lead times and true sustainability.

Over the last 24 months in particular, the team embarked on a comprehensive redesign challenge – to completely rethink the internal structure of our soft seating collection to an even higher quality and comfort, without impacting the products appearance. Starting with the modular Haven lounge, the result is an impressive 30% reduction in materials used.

Designed and Manufactured locally, Haven lounges are available within a 4-6 week lead time.

LOCAL FINISHES

Burgtec's wide range of local house fabrics are available with no extra lead time.

With hundreds of options available, each Haven lounge can be uniquely cohesive with its environment, without the worry of possible supply chain delays.

Care and Maintenance

Fabric

For a general clean, regular dusting and vacuuming removes any loose particles and stops dirt from entering the weave and breaking down the fibres. When necessary, the upholstery should be gently wiped with a clean cloth, dampened with warm soapy water.

Immediately dry with a clean and dry non-abrasive cloth. Do not use strong or abrasive cleaning fluids or detergents, as these may affect the colour and finish of the fabric. Upholstery can be professionally dry-cleaned if required. For best care and maintenance results please follow manufacturer's instructions

Leather, Vinyl, PU & Faux Leather

Periodically dust with a clean, dry soft cloth. Do not expose your Chairs to prolonged Sunlight or other heat sources as this may cause fading. Avoid extremes of Humidity. For Dried Soiling: Gently brush with a soft brush or gently clean with a vacuum cleaner. For Wet Soiling and deep cleaning: Gently remove the excess substance from the surface with absorbent paper. With a clean cloth soaked in a mild soap solution, gently remove the stain. Do not soak the surface, dry and buff immediately with a clean cloth. For best care and maintenance results please follow manufacturer's instructions.

Chrome, Anodised, Polished or Powdercoated Metal Surfaces

Clean with a damp, soft cloth or sponge using lukewarm soapy water. Strong detergents which contain bleach, acid or have an abrasive effect (such as scouring creams) should be avoided. Sponges and scourers made from synthetic fibres or metal which may leave permanent scratches on the surfaces should also be avoided. Ensure product is dried with clean fibre-free cloth after washing.
