World One Chair

Improve your world

World One Chair

The simplicity and ingenuity of the Humanscale World One chair is now available through our exclusive stock program.

Truly representative of a Humanscale chair, the Burgtec World One chair design eliminates the need for traditional mechanisms by using the laws of physics and the user's body weight to offer the perfect recline.

Blending the most minimal design with innovative features such as a tri-panel mesh back, weight sensitive recline paired with a fabric seat for added comfort, the chair results in unmatched ergonomic support.

High performance and simplicity combine to create a cost effective yet high value solution that will adapt to every user.

Features

Tri-panel, non-stretch mesh construction creates body-fitting contours and self-adjusting lumbar support for an automatic, customized fit

Fabric Seat

Self-weighted mechanism provides appropriate support and automatic resistance regardless of user's size

Height adjustable arms affixed to the back of the chair to follow the user

Size-adjustable to fit the widest range of body sizes

Frame-less front edge eliminates contact stress behind the knees

Weight rating: 135kg

In stock with and without arms

Finishes

Seat upholstery: Black fabric

Back: Black mesh

Warranty

7 years

Lead Time

1-2 Weeks

Humanscale®

Humanscale partnership

Humanscale has solidified its status as a true global leader in ergonomics since the 1980s, known for its innovative, award-winning, user-focused designs featuring ground-breaking technology.

Through their exclusive World One chair stock program, Burgtec is honoured to be collaborating with the New-York based company, who partner with the legendary designer Neils Diffrient for a number of iconic seating solutions.

General care and maintenance

Laminate Surfaces

Clean with a damp, soft cloth or sponge using lukewarm water. Neutral diluted detergent may also be used with lukewarm water. Strong detergents which contain bleach, acid or have an abrasive effect (such as scouring creams) should be avoided.

Metal surfaces (except stainless steel)

Clean with a damp, soft cloth or sponge using lukewarm soapy water. Strong detergents which contain bleach, acid or have an abrasive effect (such as scouring creams) should be avoided. Sponges and scourers made from synthetic fibres or metal which may leave permanent scratches on the surfaces should also be avoided. Ensure product is dried with clean fibre-free cloth after washing.

Stainless steel

Stainless steel needs constant care and preventative maintenance. The surface needs to be wiped dry of moisture daily. This is to prevent the moisture being trapped under a cover of dust or sea spray which results in tea staining. Stainless steel should be cleaned with 'White Lily' cream cleaner (no abrasive) or a stainless-steel cleaner - usually in a spray can. Wipe over surface in direction of finish lines.

Plastic

These materials are fairly resistant to damage from dirt. Regular dusting should help keep the surfaces free from dirt and help stop any scratches occurring. Avoid contact with boiling water, high heat, flame, and abrasives. Wash in warm soapy water and apply pressure where necessary, drying afterwards with a clean cloth. Do not use strong or abrasive cleaning fluids or detergents, as these may affect the colour and finish of the surface.

Fabric

For a general clean, regular dusting and vacuuming removes any loose particles and stops dirt from entering the weave and breaking down the fibres. When necessary, the upholstery should be gently wiped with a clean cloth, dampened with warm soapy water. Immediately dry with a clean and dry non-abrasive cloth. Do not use strong or abrasive cleaning fluids or detergents, as these may affect the colour and finish of the fabric. Upholstery can be professionally dry-cleaned if required. For best care and maintenance results please follow manufacturer's instructions.

Leather

Periodically dust with a clean, dry soft cloth. Do not expose your furniture to prolonged sunlight or other heat sources as this may cause fading. Avoid extremes of humidity. For dried soiling: gently brush with a soft brush or gently clean with a vacuum cleaner. For wet soiling and deep cleaning: gently remove the excess substance from the surface with absorbent paper. With a clean cloth soaked in a mild soap solution, gently remove the stain. Do not soak the surface, dry and buff immediately with a clean cloth. For best care and maintenance results please follow manufacturer's instructions.

Vinyl, PU & Faux Leather

Periodically dust with a clean, dry soft cloth. Do not expose your furniture to prolonged sunlight or other heat sources as this may cause fading. Avoid extremes of humidity. For dried soiling: gently brush with a soft brush or gently clean with a vacuum cleaner. For wet soiling and deep cleaning: gently remove the excess substance from the surface with absorbent paper. With a clean cloth soaked in a mild soap solution, gently remove the stain. Do not soak the surface, dry and buff immediately with a clean cloth. For best care and maintenance results please follow manufacturer's instructions.

People are the heart of every organisation. A well-designed workplace is one that welcomes, supports and elevates. It inspires people to bring their best self to work, everyday.

At Burgtec, we're genuine about partnerships. Bringing our expertise to the table, we listen with intent to understand the individual needs of our clients. We're proud to provide service as it should be, never taking our supplier, peer or client relationships for granted.

Since 1981, we've been local first. We design and manufacture our furniture here in Australia, using locally produced materials and suppliers at every step possible. We do this because it just makes sense – quicker lead times, true sustainability, better control of budgets and never needing to compromise on quality.

A Burgtec workplace balances practical needs with good design and ingenuity. It's a space that sits right, a place that nurtures relationships and potential.
